授業概要	In this class, we will work on two areas:  1. You will do focused activities within the CHIeru e-learning system, learning how to do self-paced English learning to attain targets each month.  2. We will begin to explore English as it is used in such media as the Internet, television, movies, and newspapers. This is in preparation for the work you will do later in the 2nd semester where we will explore this media in greater depth.								
学生が達成すべき 行動目標	I can use a self-paced course to plan my own English learning     I can ascertain my weak areas in English and target my studies toward those areas

An ideal student for this class will use their skills to research media technology, present on it, and if possible, use that technology to create original media. They will also utilise many different media to build their English skills.				Students must work in a self-paced manner to work through the activities each week, and self assess their abilities to ascertain future goals.
