변화함을 Malcolm Ross Swanson  In this class, we will work on two areas: 1. You will continue to focus on activities within the Citient e-learning system. 2. We will aspire English as it is used in such media as the Internet, television, movies, and newspapers. Each week students will be required to research material and greens! it to the class or their group. Following each presentation, we will discuss the material so participation in English will be very important. We will also exolore the English parts of this world Wide Week to see what is a validale, participately for helping you build your English salls. Then, we are going to assemble or create material of our own to publish online. As part of this class, students will need access to the Internet as all class materials will be available, participately for helping you build your English salls. Then, we are going to assemble or create material of our own to publish online. As part of this class, students will need access to the Internet as all class materials will be available, participately for helping you build your English salls. Then, we are going to assemble or create material be incorrect will to use in this class.  Students taking this course will work towards these "Can do" goals: 1. I can use media as a resource to study English 2. I can discuss issues that other students present. 3. I can find reliable material on the Internet 5. I can use a community webspace 6. I can upload material to a website of a supplier of the add-ons. 10. I can design, create, and present an Internet project.   ***Extigate**  **PECATION**  **PECATION**  **PECATION**  **A	履修	選択	関連資格					ナンバリ	ング	EN21301E
In this class, we will work on two areas:   1. You will continue to focus on activities within the CHIera erlearning system.   2. We will expire English as it is used in such media as the Internet, television, movies, and newspapers. Each week students will be required to research material and present it to the class or their group. Following each presentation, we will discuss the material, so participation in English will be very important. We will also explore the English parts of the World Wide Web to see what is available, particularly for helping you build your English sollis. Then, we are going to assemble or create material of our own to publish online. As part of this class, students will need access to the Internet as all class materials will be available there, allow givil extra study activities. Read, thirk, present, discuss, listers argue, collaborate, share. These will all be important stells to use in this class.    Students taking this course will work towards these "Can do" goals:   1. I can use media as a resource to study English   2. I can discuss issues that other students present   3. I can build skills to continue discussions both within class and online   4. I can use a community webspace   6. I can use a community webspace   6. I can use a community webspace   7. I can create and ministral as web log (blog)   8. I can use forums and chatrooms for language learning   9. I can use wikis, galleries, portfolios, podcasts, and other add-one   10. I can disain, create, and present an Internet project   **Extra Capta ** **Extra ** **Extra *	開講年次	2 年	開講時期	後期	該当DP	DP1-1	DP4-2 DP4	4-3 DP5-1	DP5-2	
1. You will continue to focus on activities within the Chileru e-learning system.   2. We will explore English as it is used in such media as the Internet, television, movies, and newspapers. Each week students will be required to research material and present it to the class or their group.
