授業概要	In this project-based course, we will be working together to develop the course structure as we go. Not only will you be students, but you will also be expected to take on the roles of researchers, course designers, presenters, leaders, and even teachers. For each class, you will discuss, present, debate, and research topics decided the previous week. This class will be particularly useful for preparing for your "sotsuron" thesis, as it will give you a chance to share ideas and accept feedback from other students.
