授業概要	<p>The aim of this course is to further develop the skills from the second year discussion course and to develop research ability with challenge based learning. Topics will be examined in an active learning environment where the students discuss the issues in more detail and do research to gain a better understanding of the issues associated with the topic. Students are expected to work collaboratively on the various challenges and then share their findings with class members via presentation and discussion in order to offer ways to resolve the challenges that the topics face.</p> <p>All classes will be taught in English.</p>							
学生が達成すべき行動目標	<p>It is hoped that students will</p> <p>1- improve their ability to discuss matters of substance</p> <p>2- be able to work collaboratively with others to produce a final product</p> <p>3- improve on their research abilities and how to present their findings</p> <p>4- find creative ways to solve problems in a variety of situations</p>
