授業概要	Semester 2: Our Place in the World – Continuing on from Semester 1, we have worked on your communication skills and developed your research, discussion, and presentation abilities. We have also worked on task-based projects together. Again, we will put all of your skills together for you to really USE your English. In this Global English II course, we will focus on current events and issues both in Japan and around the world. In fact, each class will begin with a look at news for that week, and then continue with the topic we are working on. This will give you a great awareness of what is happening around the globe. If you take this class, please be prepared to research, collaborate, and share what you learn. This class is absolutely English only.
