履 修	選択	関連資格			ナンバリング	EN21301E		
開講年次	2	開講時期	後期	該当DP	DP1-1 DP4-2 DP4-3 DP5-1 DP5-2			
担当教員	Malcolm Ross Swanson							
授業概要	<p>In this class, we will work on two areas:</p> <ol style="list-style-type: none"> 1. You will continue to focus on activities within the CHieru e-learning system, 2. We will explore English as it is used in such media as the Internet, television, movies, and newspapers. <p>Each week students will be required to research material and present it to the class or their group. Following each presentation, we will discuss the material, so participation in English will be very important. We will also explore the English parts of the World Wide Web to see what is available, particularly for helping you build your English skills. Then, we are going to assemble or create material of our own to publish online. As part of this class, students will need access to the Internet as all class materials will be available there, along with extra study activities. Read, think, present, discuss, listen, argue, collaborate, share... these will all be important skills to use in this class.</p> <p>NOTE: All classes will be taught in English.</p>							
学生が達成すべき行動目標	<p>Students taking this course will work towards these "Can do..." goals:</p> <ol style="list-style-type: none"> 1. I can use media as a resource to study English 2. I can discuss issues that other students present 3. I can build skills to continue discussions both within class and online 4. I can find reliable material on the Internet 5. I can use a community webspace 6. I can upload material to a website 7. I can create and maintain a web log (blog) 8. I can use forums and chatrooms for language learning 9. I can use wikis, galleries, portfolios, podcasts, and other add-ons 10. I can design, create, and present an Internet project

具体的な達成の目安								
理想的レベル				標準的なレベル				

An ideal student for this class will use their skills to research media technology, present on it, and if possible, use that technology to create original media. They will also utilise many different media to build their English skills.		Students must explore the topics provided each week, using the technology they are provided with in original and innovative ways. They must also build their English skills using media in an effective manner.		
授業計画				
進行	テーマ・講義内容	授業の運営方法	学習課題(予習・復習)	予習・復習時間(分)
1	1. Course introduction: Information about the course, and an introduction to the website we will be using. Safety and care online. 2. CHIERU orientation	Lecture, note taking	No assignment	
2	1. Social networking: Discussion of the current state of social networking on the Internet. Introduction to the use of our Elgg installation. 2. Current news & topics: Group discussions from teacher-provided materials. Planning for next class. 3. CHIERU focused activities	Following instructions, forum writing	Completion of class assignments	30
3	1. Blogging: Explanation of blogging and how it is used on the Internet. Students will set up their own blogspace. 2. Group discussions: Presentations by group members, followed by discussions. 3. CHIERU focused activities	Writing a blog	Completion of class assignments	40
4	1. Webquest 1: Explanation of how to use the web for research of English material. Students then perform a web quest. 2. TV shows: A selection of television programming provided by the teacher as a basis for discussion. Planning for next class. 3. CHIERU focused activities	Researching online	Completion of class assignments	20
5	1. Internet portfolio: The current state of web portfolios and online resumes. Students will begin developing their own. 2. Group discussions: Presentations by group members, followed by discussions. 3. CHIERU focused activities	Writing in a wiki	Completion of class assignments	30
6	1. Cutting edge: Lecture and demonstration of the very latest in cutting edge technologies available on the web. Students compile a report. 2. Internet sites: Material from Internet sites provided by the teacher as a basis for discussion. Planning for next class. 3. CHIERU focused activities	Research technology	Completion of class assignments	20
7	1. Webquest 2: Students will perform a webquest, then be taught how to present their findings online. 2. Group discussions: Presentations by group members, followed by discussions. 3. CHIERU focused activities	Researching online	Completion of class assignments	20
8	1. Forums and chatrooms: How to use these online. Students will practice their use on our Moodle installation. 2. TED Talks. Watching and discussing TED Talks videos. Finding own material.	Forum writing, email and chat	Completion of class assignments	40

	3. CHIeru focused activities			
9	1. Surveying online: Tools for creating online surveys and using the results within research reports. 2. Group discussions: Presentations by group members, followed by discussions. 3. CHIeru focused activities	Surveying, data collation	Completion of class assignments	40
10	1. Photo galleries and online presentations: Using gallery websites and presentation sites for publishing media. 2. Newspapers & magazines: Material from newspapers and magazines provided by the teacher as a basis for discussion. Planning for next class. 3. CHIeru focused activities	Editing photos	Completion of class assignments	20
11	1. Cloud computing: Using online office suites (e.g., Google Docs) for working online as opposed to purchasing software. 2. Group discussions: Presentations by group members, followed by discussions. 3. CHIeru focused activities	Writing online	Completion of class assignments	20
12	1. Podcasting and Internet radio: Learn about podcasting and how it can be used to develop skills and interests. 2. Radio shows: Material from radio shows provided by the teacher as a basis for discussion. 3. CHIeru focused activities	Listening skills	Completion of class assignments	30
13	1. Webquest 3: The final webquest, which will be used to find material for the final project. 2. Group discussions: Presentations by group members, followed by discussions. 3. CHIeru focused activities	Researching online	Completion of class assignments	20
14	1. Student project: Using the material found the previous week, students will create a project of their choice using any of the web technologies they have studied and present to the class.	Presentation	Writing feedback	60
