授業概要	Welcome to an exciting world of ideas! You have spent many years studying English structures, and last year you had your first taste of oral English. This year, we take everything you have learned and begin using it in authentic situations. This is not a conversation class, but a class where we examine real topics. You will be expected to prepare for each lesson, then come to class ready to express your opinions and listen to other students in order to gain a variety of perspectives. For students with curiosity and a willingness to share unique ideas, this will be an interesting and stimulating class. Note: All classes will be taught in English.								
学生が達成すべき 行動目標	Through this class, it is hoped the students will be able to: - improve their general comprehension skills - show that they agree or disagree with others' opinions - state their own original opinions about the topics under discussion - clearly express their point of view and explain why they hold that view - prepare and make short presentations about various topics
