授業概要	<p>Following on from your first year, we will again hold many events and activities to help you build your English skills. These will be at a higher level than English Extension I. You cannot become a competent English speaker just by attending classes, so these activities are one way to improve your listening, speaking, discussion, and presentation skills. In addition, you will learn more about the many cultures behind the English language. These will help you prepare for any future study abroad or travel experiences you might have.</p> <p>On top of the activities we offer, there is also our CHIeru e-learning program which will give you extra practice in all the English skill areas. By doing a little extra English practice online each week, you will gain extra proficiency.</p> <p>NOTE:</p> <ol style="list-style-type: none"> All classes will be taught in English. Most classes will be conducted face-to-face, but some will use online resources and presenters.

具体的な達成の目安								
理想的レベル				標準的なレベル				
An ideal student in this course will participate enthusiastically in as many activities as she can, and focus more on the intrinsic benefits than the grade points. She will also complete the CHIeru assignments in a regular fashion, studying 2-3 times a week rather than a final rush.				Students will need to complete follow-up reports in addition to participating in activities. They will need to monitor their own progress to ensure they have sufficient points to pass the course.
