授業概要	<p>Following on from your first and second years, we will again hold many events and activities to help you build your English skills. These will be at a higher level than English Extension I and II. You cannot become a competent English speaker just by attending classes, so these activities are one way to improve your listening, speaking, discussion, and presentation skills. In addition, you will learn more about the many cultures behind the English language. These will help you prepare for any future study abroad or travel experiences you might have.</p> <p>On top of the activities we offer, there is also our CHIERU e-learning program which will give you extra practice in all the English skill areas. By doing a little extra English practice online each week, you will gain extra proficiency.</p> <p>NOTE:</p> <ol style="list-style-type: none"> All classes will be taught in English. Most classes will be conducted face-to-face, but some will use online resources and presenters.
