The general skills you have developed through your time studying English will help you prepare for this class. It is essential that students study and review the Unit Vocabulary, as many will be new and all are very specific to the travel industry. To encourage students in their studies, a Vocabulary Review Quiz will be given after every three units (Units 1-3, 4-6, 7-9, 10-12, and 13-14).

その他

As this is an active learning class, students will receive additional assessment based on in-class subjective performance such as attitude, helping skills, leadership, and responsiveness to both the teacher and classmates. Evaluation of these additional factors will be based on actively attending the class each week.
