授業概要	During your second year at Seinan, you'll start doing lots of presentations in your classes. We use these often because they give you an opportunity to build your speaking, listening, and research skills. In the first semester, you focused on creating presentation media. This second semester course will focus on researching and building the content of your presentations, and delivering them in a clear and rehearsed manner. Between these two courses, you will develop the skills to make, practice, and give clear and interesting presentations. NOTES: 1. All classes will be taught in English. 2. Students will need to access the course page on the "My Study" Moodle to access assignments.

		学生が達成	えすべき 行動	目標					
標準的 レベル	 Students taking this course will work towards these "Can do" goals: 1. I can practice and improve my oral presentation skills and techniques. 2. I can develop my writing and research skills for speeches and presentations. 3. I can research relevant content, and collate and organise the material for presentations. 4. I can create interesting presentations that can be delivered with confidence. Students in this class must listen to the guidelines carefully and incorporate what they learn into effective presentations. They need to work with others, and listen to the feedback they receive. 								
理想的	An ideal student in this class works within the guidelines they receive, but also adds their								
レベル	own creativity, imagination, and confidence to create and deliver presentations of an extremely high standard.
